

Omar Khaled Shehata

Full-Stack Developer (MERN)

Cairo, Egypt | +20 102 036 9174 | omardarhous111@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience across the MERN stack, building enterprise dashboards, SaaS platforms, and production-ready applications end-to-end. Skilled in React.js, TypeScript, Node.js, Express, and MongoDB, with experience designing REST APIs, authentication systems, and role-based access control. Comfortable owning features from database to UI within Agile teams.

EXPERIENCE

SimpleWay — Frontend Developer (Hybrid) (Internal GRC platform)

Feb 2026 – Present

- Build and maintain 10+ enterprise dashboards and workflow modules for a live GRC platform using React and REST APIs.
- Engineer 30+ scalable React components, integrating 20+ backend APIs for core business features to improve maintainability and reusability.
- Implement role-based access control across 20+ protected application screens.

Freelance — Full Stack Developer (Remote)

Aug 2026 – Present

- Delivered custom web applications for freelance clients using React, integrating third-party or custom-built REST APIs depending on project requirements.
- Built a sports platform displaying live match schedules, real-time scores, and league standings for top-tier competitions (Top 5 European leagues, Egyptian, Saudi, and American leagues), with an integrated news feed. [live](#)
- Designed and implemented backend REST APIs from scratch when client-side data sources weren't available, ensuring reliable data delivery for match and news content.

PROJECTS

Civilisation Sprite Platform: ([GitHub](#) | [Live](#))

Developed a responsive tourism platform using React, Firebase Authentication, and REST API integration, implementing secure login, protected routing, dynamic content rendering, and scalable component-based architecture ready for production expansion..

Task manager App: ([GitHub](#) | [Live](#))

Developed a responsive task management application using React.js, enabling users to create, update, organize, and track tasks efficiently. Implemented reusable components, state management, and form validation to enhance user experience. Integrated RESTful APIs for seamless data handling and real-time updates. Focused on clean UI design, performance optimization, and responsive layouts across different devices.

Fast Pizza App: ([GitHub](#) | [Live](#))

Fast Pizza — a React + Vite + Tailwind web app with Redux Toolkit for state management, featuring dynamic menu browsing, cart operations, order management, and geolocation-based address resolution via public APIs.

Movie & TV Shows App: ([GitHub](#) | [Live](#))

Responsive Movie & TV Shows application integrating the TMDB API with React, TypeScript, Zustand, React Router, Tailwind CSS, and Chart.js.

TECHNICAL SKILLS

Front-end: React.js (Hooks, Context API, Performance Optimization), HTML5, CSS3, Tailwind CSS, Styled Components, MUI, Redux, Zustand, React Query, Axios, WebSocket.

Back-end: Node.js, Express.js, MongoDB, MySQL, REST APIs, JWT Authentication, Stripe Integration, WebSocket (server-side).

Languages & Practices: JavaScript (ES6+), TypeScript, C++, OOP, SOLID Principles, Design Patterns, API Integration, Software Architecture.

Tools: Git, GitHub, Postman, VS Code, Figma.

EDUCATION

Zagazig University — B.Sc. Computers and Informatics (Decision Support)

Sep 2019 – Jul 2023

Grade: C

Graduation Project: **Civilisation Sprite Platform** — Excellent

CERTIFICATIONS & LANGUAGES

Route Academy — Full Stack Web Development Diploma

Aug 2022 – May 2023

Languages: Arabic (Native) • English (Advanced) • Deutsch (Intermediate)
